

# How to Create an Exquisite Corpse

Take a piece of paper and fold it four sections.

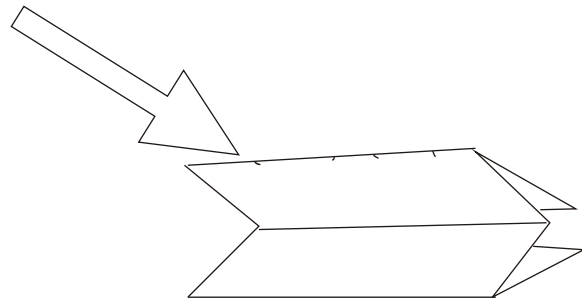

Without letting anyone see, Person #1 draws a head in Section #1. Person #1 continues the lines at the bottom of Section #1 slightly over onto Section #2, as shown to the right.

Person #1 then folds Section #1 over--so that no one can see what has been drawn--and passes the paper on to Person #2.

Now, starting with the lines from Section #1, Person #2 (who hasn't seen Section #1) continues the drawing in Section #2 by creating the upper body of a creature, then continues the lines from Section #2 slightly over onto section #3.

Person #2 then folds Section #2 over--so that no one can see what has been drawn--and passes the paper to Person #3. Person #3 will draw the next portion of the body.

Person #4 will draw the bottom part of the body. Then unfold the paper and see what you have created. As a group, try to identify what kind of creature it is.
